

Latitudinal temperature gradient: Thanetian

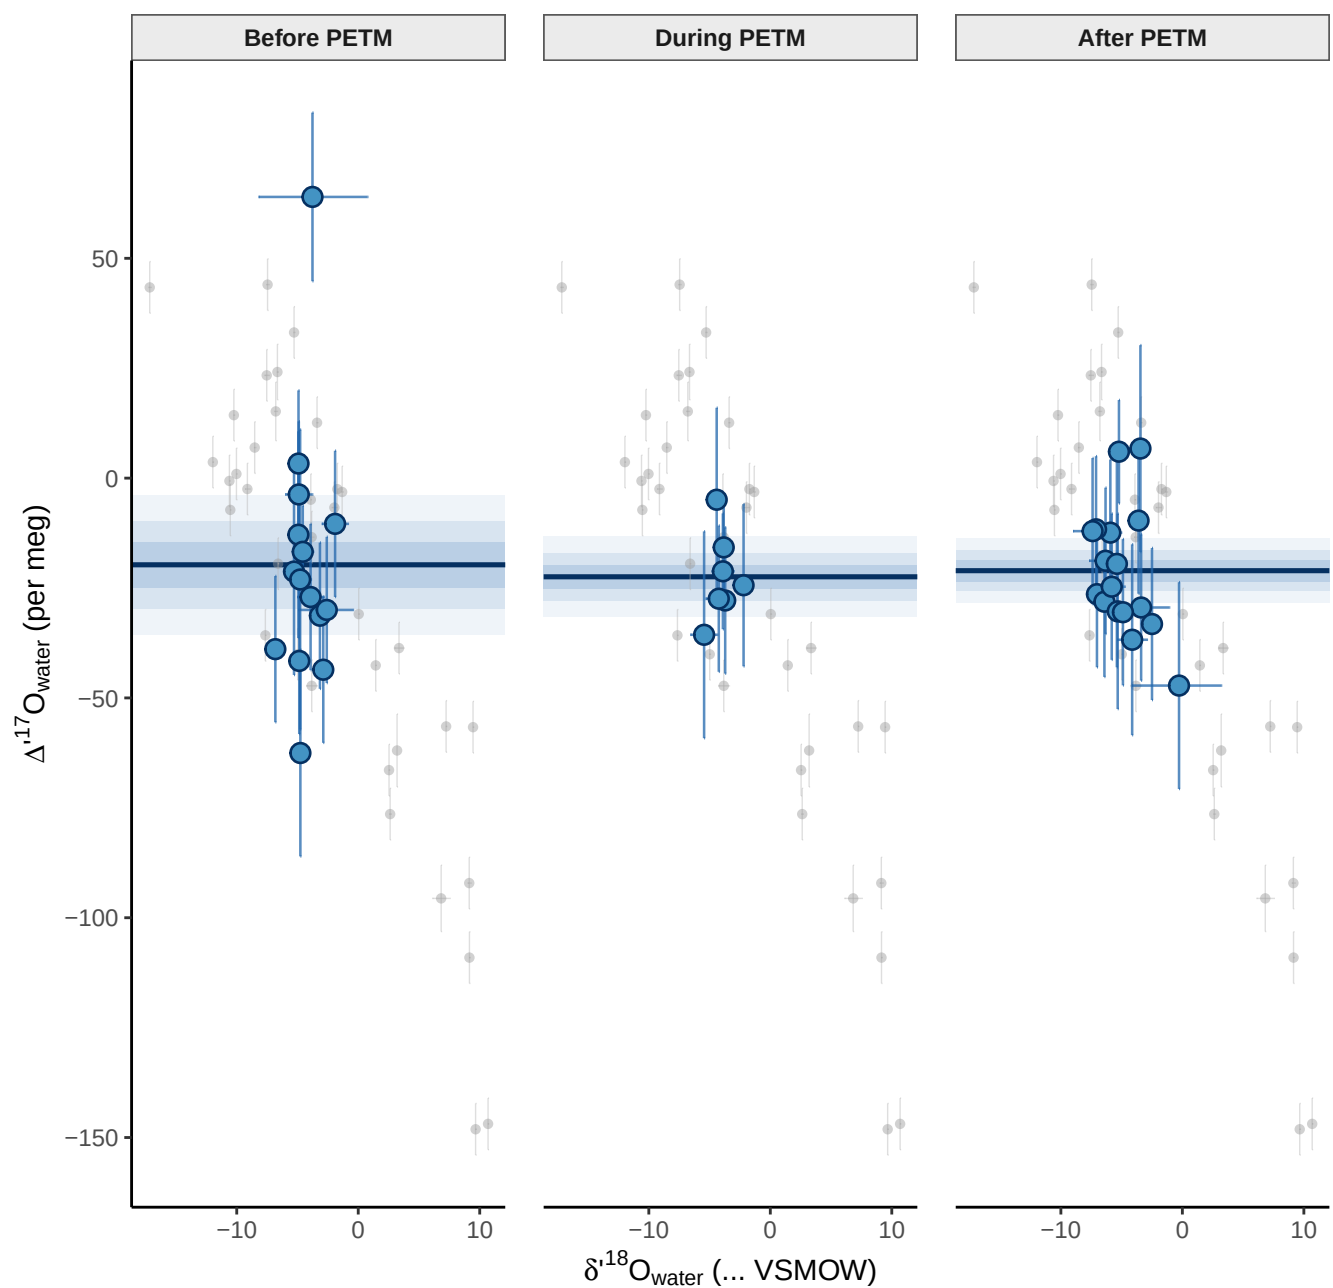

BHB n = 11; Kelson micrite n = 4

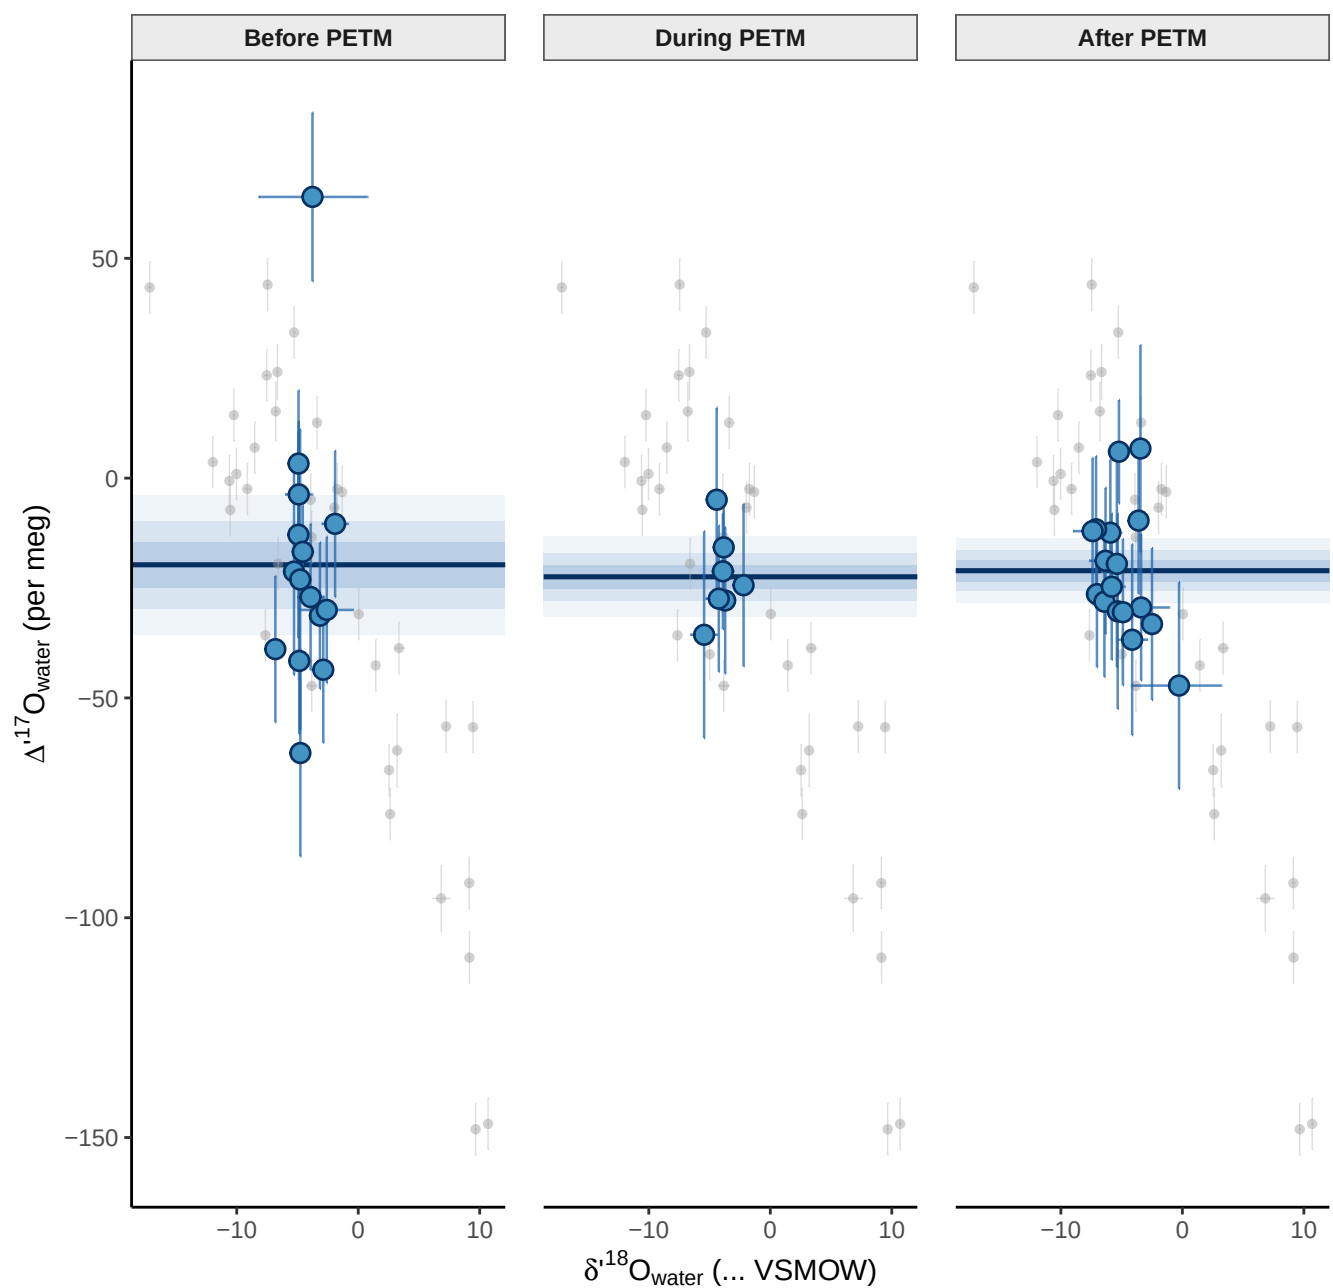

Latitudinal temperature gradient: Ypresian

BHB n = 20; Kelson micrite n = 16

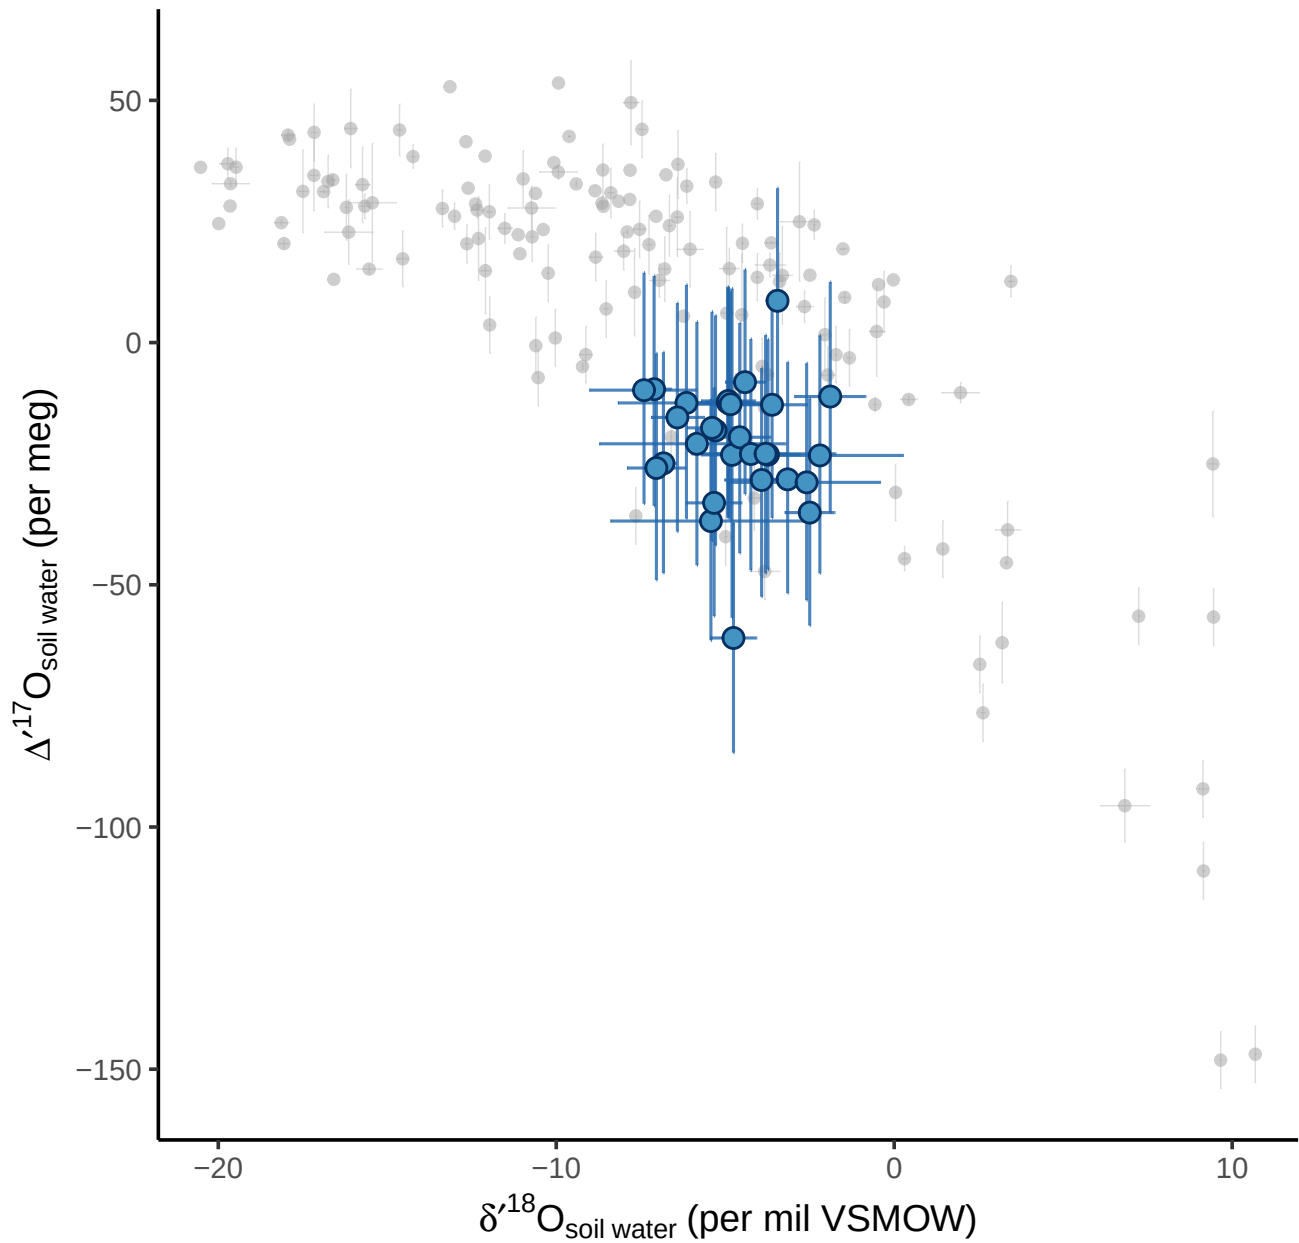

PETM interval: 1506–1543 m. Grey points are observed modern soil waters from Kelson et al. Blue horizontal lines

Direct clumped-isotope samples (n = 30)

All triple-oxygen samples (n = 39)
