

Monte Carlo burial-fluid paths in T_{47} - $\delta^{18}\text{O}$ space

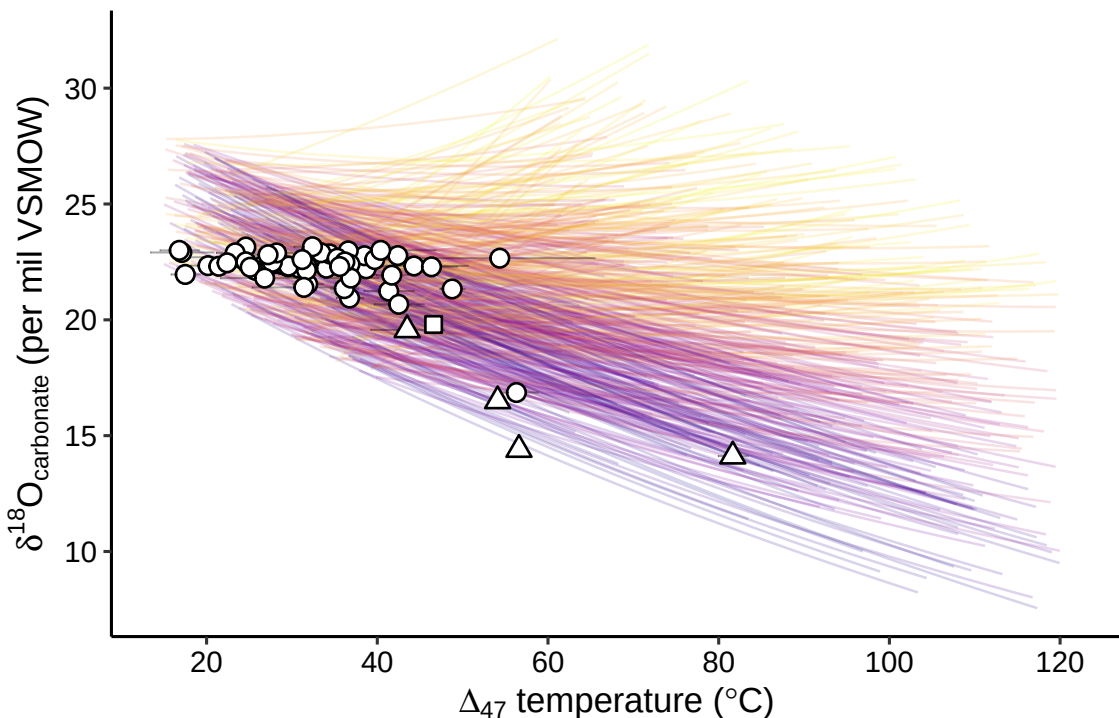

500 illustrative paths span heating and progressive burial-fluid ^{18}O enrichment.

Total $\delta^{18}\text{O}_{\text{water}}$ shift (per mil)

5 10

Carbonate material $\square$ Altered carbonate $\circ$ Pedogenic micrite $\triangle$ Spar

Calcite-water fractionation: Kim and O'Neil (1997); random seed = 123.
